

Please do not allow fracking on the west coast of Newfoundland. I am a resident of Stephenville and have concerns about the air pollution, toxic waste water, proper disposal of the waste water, health concerns, traffic congestion, and fumes from heavy traffic. There is no one on the panel to represent my concerns. It has not yet been proven safe and I do not want to see it happen here. I live here because of the environment, the peace and quiet and I do not want to see this ruined.

A. Hatcher
