

Keep Newfoundland and Labrador frack-free

Please ban all fracking in Newfoundland and Labrador. We do not need more oil in Canada or the world. We need better use of our energy and its sources. Newfoundland and Labrador have beautiful and unspoiled mountains and waterways which I have seen. Do not allow them to be ruined and depleted to make the rich of Canada richer without regard for the majority of the people of Newfoundland and the many indigenous people of Labrador.

Sincerely,

A. Leonard
