

Onshore Area Historical Well Program Expenditures and Employment (1994-2013)

Year	Cost (Million CAD\$)	Employment (Person-Hours)	
		Newfoundland	Non-Newfoundland
1994	14.38	73037	22444
1995			
1996	0.03	6408	6408
1997	0.83	6192	6192
1998			
1999	0.17	2376	2376
2000	0.60	59184	59184
2001	0.74	16873	16873
2002	0.30	21600	21600
2003			
2004	1.38	27325	16098
2005	3.03	24828	1284
2006	1.29	10386	10632
2007			
2008	11.53	16565	12424
2009	14.19	69674	7260
2010	26.53	26501	27527
2011	0.60	8957	10221
2012	2.51	3948	8148
2013	3.92	3948	11760
Total	82.05	377802	240431

Notes:

Data does not include onshore-to-offshore wells.

The year indicates the spud date of the well(s)

The cost is the cumulative well cost, including location preparation, rig moves, completions, and testing activities.

Employment data is based on actual reporting and industry standard estimates applied to well activities.
